## WANNEROO WANDERERS 4WD CLUB INC

The Wanneroo Wanderers 4WD club is an enthusiastic group of people who have banded together to enjoy 4WD trips and excursions while conserving the natural bush ecology.

Club membership comprises families and individuals of all ages. The range of club activities caters for the novice as well as the experienced drivers. Activities include social functions, day drives, weekend and extended trips both on and off road at various times during the year.

Club members use a range of camping options from swags, tents, troopies, camper trailers and caravans. The club has no preference to the make of 4WD vehicle owned. Personal and vehicle safety during club events is of the utmost importance. Where possible proposed trips are thoroughly planned and surveyed in advance.

The club is an affiliated member of the WA 4WD association and we support the aim to promote 4WD vehicle owners as responsible, community spirited people concerned with conservation and the environment.

The club Meets at the Warradale Community Centre, Warradale Terrace, Lansdale on the first Wed-nesday of each month except for January when it is held on the 2nd Wednesday, commencing at 7:45pm.

Visitors are always welcome to attend meetings and club events. Prospective members are encouraged to attend two club meetings and two club activities before applying for membership.

If you wish to obtain further information about the club, please feel free to contact us at:

## Annual Damper cook off

On Friday night we had the annual damper cook off at "Christmas in July" held at Hillside. This year there were eight dampers to choose from which made it hard for President Phil so he had a helper in Dieter.

Alisa & Rodney did gluten free with cheese.

Eric & Julie did chilli.

Lesley & Bob a banana one.

Jenny & Tony gluten free with herbs

Allan & Allison put coconut on their gluten free.

Michelle & Brian put garlic butter on theirs.

Mirella & Paul's was served with jam and cream

Kerry & Steve made a gluten free butter cake mix

All had other secret ingredients but the winner by a banana was Lesley and Bob. The President loves bananas, who knew!

# KENNEDY RANGES TRIP - 2024

John and Penny Stoffels

Bindoon was the meeting point for the start of our trip on Saturday September 14th. We had seven vehicles to start the trip consisting of BRUCE, SHAUN & ROSE, TERRY & JACKIE, STEVE & ROBYN (visitors), STEVE SHARPE, GREG & LYN and JOHN & PENNY. The first leg was uneventful travelling through lush green farming land to reach our destination for that night - COALSEAM. The allocated camping areas in the area were all booked, so John took us to his "secret spot" where we camped on the top of the Ridge overlooking magnificent scenery and surrounded by wildflowers (mostly everlasting). The day was hot and there were a lot of flies. These two situations followed us for the rest of the trip.

**SUNDAY SEPTEMBER 15TH.** had a good look around Coalseam, then on the road to the Murchison Settlement. On the way, we called in to Mullewa and had a private tour of an old magnificent church built by Monsignor Hawes.

Then called in to have a look at Pindaring Rocks before getting to Murchison Settlement. After setting up camp, we headed to Errabiddy Bluff for sundowner drinks. A beautiful scenic spot about 12 km away. It even had a barbie area on the top of the lookout hill.

**MONDAY SEPTEMBER 16TH.** we set off for Gascoyne Junction calling in to the Wooramel Crossing and Gorge and beautiful Bilung Pool.

Arrived at Gascoyne mid afternoon to be greeted by fellow travellers RICHARD & KYLIE and PHIL, making us a convoy now of nine vehicles. Had a group dinner in the Tavern.

**TUESDAY SEPTEMBER 17TH.** Our four wheel drive adventure starts here. We crossed over the Gascoyne River and we had our first and only river crossing with water. Our first stop was MOOKA MINE SITE which was actually a dry river bed containing the most stunning rocks. For those of us who love rocks, we were in awe of the variety of colours.

We continued on to MOOKA SPRINGS which was like a little oasis in the desert with clear water surrounded by reeds.

From here, we called in to see YENNY SPRINGS. not much to see there but a beautiful large palm tree giving the illusion of an oasis. For our lunch break, we stopped at CHAFFCUTTERS GORGE. It was beautiful with large white river gums. A truly magnificent spot to camp.

From here, we traversed through many different types of tracks. There was an extremely rocky section between two rocky outcrops that was supposed to be the road but was more like a goat track. Then we had red sand dunes with smooth sandy tracks and occasionally the ever present washouts which were very challenging. We found a "visitors book" in the middle of nowhere and Kylie signed it on behalf of the Club. After a great day of four wheel driving, we finally found a decent spot to camp at what we believe to be "GREAT GORGE". we set up camp about 400m from the cliff edge. The scenery was amazing. Had our first camp fire.

**WEDNESDAY SEPTEMBER 18TH.** Another hot day. Left camp and drove for quite some time parallel to the cliff edge. We passed a Gorge called "THE NECK" and another impressive sight called "WHITE STACKS".

The views across the valley were incredible. Then on to our first abandoned homestead called "MERLINLEIGH". Rumour has it that this place is haunted. It is also rumoured that petrified wood can be found here. We came across neither.

Set off again and found the track very unused. Ended up at a well with a few dozen braham cows wondering what we were doing there. The track had just disappeared into the cow paddock, but after some searching, the boys found it again, but had to clear a way through the paddock to get to the other side.

Back on to a very unused track to find our next abandoned homestead "MOOGOORIE". Had a quick lunch near Toby's Bore. Hardly any shade and was the hottest day yet. Even the flies were seeking shade. We came to a dry creek crossing that was impassable due to a fallen tree and extremely steep banks. So out came the chainsaw (compliments of Terry) and an army of shovel wielding volunteers.

The creek crossing was redesigned within ten minutes and became easy to cross. Eventually we could see MAGOORIE STN in the distance, but again the track ended abruptly. So after a bit of scouting around, Shaun sent up his drone and found the track again. Got to the homestead and disturbed a heap of kangaroos that were using the buildings to live in. We opted not to look around until we had permission from Williambury Station as it was their outstation. Carried on to Williambury Stn which is beautifully set out amongst lush trees. The owners, John & Rachel, are a young couple with a homestead full of different animals .... horses, sheep, chickens, five dachshunds and even a pet monitor lizard. They gave us permission to camp on their station, so we chose a nice sandy area near the dry riverbed and against the rugged rocky outcrops. Had a campfire for ambience only as the night was warm.

**THURSDAY SEPTEMBER 19TH.** As usual on every trip, Richard did his early morning walk, but he has been accompanied this trip by John and Shaun & Rose. Today we went back to MOOGOORIE HOMESTEAD for a look around. In it's day, this place would have been a mansion in the desert. So well set out and still quite preserved.

On to MOUNT SANDIMAN (the last of the abandoned homesteads). This station was also very preserved and well worth seeing

As it was so very hot, we decided to head back to the caravan park. On the way, we stopped to look at the "COBBLED ROAD". A unique piece of history and would have been a nightmare to build.

Got back to camp and eventually we nearly all ended up in or around the pool to cool off.

FRIDAY SEPTEMBER 20th A few people have left the group now, so those of us who were left, decided to go back to the Gascoyne River for a bit of "hooning" fun on the dry river banks, then a picnic lunch in the shade. Phil even had a go at trying to catch a fish that we were told were fresh water mullet. They weren't hungry.

Came back to camp and later that evening we had dinner in the Tavern. Much to Kylie and Phil's surprise, Richard had organised a couple of cupcakes with candles to come out to celebrate their birthdays the next day. Everyone in the Tavern sang happy birthday.

**A GREAT WAY TO END A GREAT TRIP!!**

# Three Bears Track Trip

- Friday 27 Sept to Tuesday 1 Oct 2024

*Eric Ayers*

We arrived on Friday afternoon at the Southern Stars Holiday Park, Anniebrook. This is a very impressive dog friendly park in a great location between Busselton and Dunsborough.

Seven vehicles with fourteen people attended this trip and camped with a variety of caravans and roof top tents on the luxurious large grass sites.

Saturday morning we headed out to drive the Three Bears track. This is an access track to the Three Bears surfing spot and runs along the western coast line of the Leewuwin–Naturalist National Park. We entered from the southern end just above Yallingup and made our way north following the coast along the cliff top. The track conditions had changed somewhat from when Julie and I did the reckie in July. A few sections had been eroded from the recent rainfall, which made for some challenging obstacles. . I had an incident when negotiating the first section of the track and hit a rock that I didn't see. This damaged my front left side rim, causing a large dent.

Thankfully Paul had a hammer with him and after a bit of bush mechanics, the tyre held at 26 psi. I replaced it with a new rim back in Perth. I won't be doing that again !!!

Further along we came to a rocky section that had a narley drop off. We got the shovels out and all worked together doing some track building. With this plus some Max-trax and spotting each other, we made it into a much easier section. *(As usual, the camera doesn't do it justice as it was more difficult that it looks).*

At the half way point we stopped for lunch, enjoyed the view and looked for whales.

When we reached the northern entrance of the track, we ended the convoy there. Mark and Stella went to see the lookout at Sugar Loaf Rock and the others went their own way.

I limped my car back to camp with Neil and Deb following behind, as the tyre was now leaking after I inflated it to road pressure. Richard gave me a hand to change it once we got back.

On Sunday morning we drove a 4WD track to Kilcarnup Beach, had morning tea and enjoyed the south west coast.

After leaving Kilcarnup Beach we stopped at Edwards Winery. There we were told of some interesting history about the owner Brian Edwards, who in 1990 made a historic solo flight from England to Australia in a fully restored Tiger Moth. This was in honour of his father Clifford, a pilot who was killed in WW2.

Monday was a free day for people to do their own thing.

Neil and Deb caught up with family members that live in the area while the others went into Dunsborough or Busselton. Julie and I also visited Sharp's Vintage Motor Museum in Vasse.

Later that day, a group of us went to Yallingup Woodfired Bread for delicious hot bread straight out of the oven. On the way back we stopped in at Lentedal Vineyard Estate.

While we sipped on a glass of wine. Richard and his granddaughters Indiana and Eden enjoyed feeding the three pet camels on the estate.

As usual with club tradition, we enjoyed happy hour and each others company every afternoon.

The weather was perfect with a mixture of sun, some light rain showers and a chill once the sun went down.

*This photo is the view at sunset from Southern Stars Holiday Park*

I would definitely like to come back and stay here again. Everyone enjoyed the trip and we are looking forward to the next one.

Eric Ayers
